

## Client Corner - *Scootopia*

Scootopia is the first purpose built scooter dealership in Australia. Run by owner Joe D'ercole, Scootopia has full Sales, Service and Spares facilities and is currently one of the largest Piaggio (Vespa) dealers.

With figures up by 40% on last year's, the scooter market is Australia's only real growth

"automotive industry". The reasons for this growth become apparent when considering the savings involved in running a scooter, compared with most other vehicles. A scooter's weekly running cost is less than \$4.00 (for about 100km) and full comprehensive insurance for a 50cc is available for around only \$85.00 per annum. Take into account the problems and costs of traffic and parking

and the scooter's appeal only increases.

However, practical matters aside, as Joe puts it, "the best part is they are fun to ride".

Check out the Scootopia web page at [www.scootopia.com.au](http://www.scootopia.com.au) or drop into their showroom at 210 Days Road, Grange.
